1. In mid-January 1955, 200 to 300 bogie wheels for T-34 tanks were piled up in the open in front of a large building at the Muellrose tank spare part depot. It could not be observed whether the material consisted of new wheels or used wheels which had been exchanged. In 1955, an amount of 600,000 DM East was provided for construction work, including a building for eight families, and two loading ramps each with a pressure resistance of one ton. Repair work to be done included 25X1 sewerage, heating plants, and buildings including three which were to be built with Heraklite (fiberboard) slabs.

2. The following is a complete list of rail supply shipments which arrived at the Muellrose tank spare part depot in December 1954:

Dispatching Station	Number of Cars	Load
Frankfurt/Oder-border	42 B	tank spare parts
Altluedersdorf	10 B	tank spare parts and engines
Jena	3 B	tank parts and engines
Ziesar	6 B	" " " "
Hohenstein-Ernstthal	7 B	" " " "

Haldensleben	~1	bunch of motorcycle tires
Frankfurt/Oder-border	6	tank parts

25X1

25X1

Comment. The volume of tank spare part shipments was rather low in December 1954. The monthly average during the last three months in 1954 did not exceed that of the previous months.

25X1

25X1

The shipments of piece goods indicate the rate of delivery from production plants in the GDR to the Muellrose tank spare part depot.
The outgoing shipments confirm all tank repair shops of the GSFG and the six armies.
